16th April, 1954

Professor Joshua Lederberg,  
Department of Genetics,  
University of Wisconsin,  
Madison,  
Wisconsin, U.S.A.

Dear Lederberg,

Thank you very much for your most inter-  
esting reprints on 'phage and Salmonella. I  
understand that you have published or are about  
to publish a monograph on 'phage. I wonder  
whether you could let me know some details about  
the monograph as it does not seem to have come  
our way in the University Library.

Yours very sincerely,

*I. Lominski*

I. Lominski.

*P.S. The answer to the  
question are about the method of  
isolating individual microbes is  
enthusiastically yes!!*
